WAS NO PLACE FOR LUCINDA.

Unfortunate Reference to "Haunts"
Drove Colored Maid Forth.

When the southern lady left town and moved to the old manor house of her ancestors, she was accompanied by her maid.
"And now, Lucinda," remarked the mistress, as she showed the maid through the gloomy old manor, "these are the haunts of my great-grandparents."

The next day Lucinda packed her trunk and started for the station.

"But what in the world is the matter?" demanded her mistress, in surprise. "Haven't we treated you right?"

"Oh, yes," assured Lucinda, keeping an eye on the dark, wide hallways.

"Then why in the world are you leaving without notice?"

"Ah, can't help it, missus; Ah can't help it. Ah couldn't think of working any place where dere was haunts."

Moth Plays Possum.
"Playing possum" means shamming death, as practiced by that cute little beast, the American or Australian opossum. It is a queer thing to find the same curious trait in an English insect. But the curran moth, as any entomologist will tell you, when seized upon by the wing or leg, instead of fluttering, lies absolutely quiet and still until the rough grasp is slackened, when it will quietly but quickly fly away again.

You know and we well know that W. L. Douglas \$3.50 and \$4.00 shoes are better than any \$5.00 and \$6.00 shoes of any other make. For sale The Palace Good Clothes Store, 230 24th street.

Authorized to Purchase Real Estate.—Judge Howell has made an order authorizing David McKay, as guardian of the person and estate of Morgan P. McKay, minor, to purchase certain real estate in Weber county in the interest of the estate.

E-Z-Money Kelly—Money to loan on any good real estate. Geo. J. Kelly.

Cold Damaging Fruit Crops.—It is reported by fruit growers of Ogden and vicinity that the recent cold nights have materially damaged the early fruit crops. It is said that the damage falls upon early peaches, cherries, apricots and strawberries. The loss is not estimated to be total among these fruits because there are districts in the county that are so well protected against the frost that the fruits there, of whatever nature, cannot be damaged; and again, it is said it is often the case that many trees in an orchard lying within the frost zone are not damaged at all. Last night it was chilly, the thermometer in the city showing a temperature of 35 degrees above zero, which is within three degrees of the freezing point.

Burial of Raymond Huss.—The funeral of Raymond A. Huss was held yesterday afternoon at 2:30 o'clock at the family residence, 569 Twenty-second street. The Rev. J. E. Carver delivered the funeral sermon. Orson Griffin furnished appropriate vocal music for the occasion. There was a large attendance at the services and many beautiful floral offerings were brought to the casket. The interment was made in the Ogden cemetery.

COAL—Rock Springs, Castle Gate and Clear Creek. Gillette Coal Co., 153 West 27th St. Phones 1074.

Rich Gold Ore in Aura King.—Samples of ore were received yesterday from the tunnel at the Aura King mine, in which Ogden people are largely interested. Three samples were sent. The first assayed \$254.40 in gold and \$265 in silver. The second assayed \$12.00 in gold. The third assayed \$14.40 in gold and \$3.93 in silver. This ore is being saved up for milling.

STORAGE at reasonable rates, in good brick building. If you need any room, consult John Scowcroft & Sons Company.

Waiting for Missing Supplies.—The work of laying track on Wall avenue was stopped Thursday on account of shortage of spikes and bolts which were supposed to have been shipped in the first car of railroad supplies, a portion of which shipment was received the first of the week. The work of constructing grade as far as Thirty-second street is progressing steadily and it is hoped that missing supplies will arrive soon.

Lock Springs, Kommerer, Castle Gate, Anthracite and Coke. M. L. Jones Coal Co.

Services Held in Huntsville.—Mrs. Anna Swanwick was buried in the Huntsville cemetery yesterday afternoon, the funeral services being held at the meeting house in Huntsville at 2 o'clock p. m. Bishop John Hall presided over the services and the ward choir furnished music for the occasion. Miss Marcella Renstrom rendered the solo "Rest for the Weary." The speakers were Neils Lofgren and Bishop Hall.

Returned From Encampment.—The twenty-seventh state encampment of the G. A. R. of Utah was held in Salt Lake yesterday, there being one hundred and thirty delegates present. During the afternoon and evening sessions of the encampment the officers for the ensuing year were elected. Deputy United States Marshal L. S. Snyder of Salt Lake was elected commander-in-chief. Comrade Rowe of the same city was made senior vice commander, and Comrade Cronin of Salt Lake was elected to the position of junior vice commander. William H. Bishop, of Ogden, was chosen the Utah candidate for the position of vice commander-in-chief of the national organization, to be presented to the national encampment.

AT THE GLOBE

POCAHONTAS—The beautiful Indian Princess.

All are familiar with this fascinating story. In all American History, perhaps, none illustrates more clearly the temperament of the Indians and the perils of the white man. There is portrayed POWHATAN and the warriors in council, the war dance and death scene, the wickiup where the captain and the Indian girl assert their love, the execution ground, the act of sacrifice which saves the life of Captain John Smith.

Come and bring the Children to see a true story.

Other Good Things.

THE DOCTOR'S QUESTION
Advice Against the Use of Harsh
Purgatives and Physics.

A doctor's first question when consulted by a patient is, "are your bowels regular?" He knows that ninety-eight per cent of illness is attended with inactive bowels and torpid liver. This condition poisons the system with noxious gases and waste matter which naturally accumulates and which must be removed through the bowels before health can be restored. But, ordinary pills and cathartics may be truly likened to dynamite. Through their harsh, irritating action they force a passage through the bowels, causing pain and damage to the delicate intestinal structure which weakens the whole system, and at best only produces temporary relief. The repeated use of such treatments cause chronic irritation of the stomach and bowels, hardens their tissues, deadens their nerves, stiffens their muscles and generally brings about an injurious habit which sometimes has fatal results.

We have a positive, pleasant and safe remedy for constipation and bowel disorders in general. We are so certain of its great curative value that we promise to return the purchaser's money in every case when it fails to produce entire satisfaction. This remedy is called Rexall Orderlies. We urge you to try them at our entire risk.

Rexall Orderlies are very pleasant to take, they act quietly and have a soothing, strengthening, healing influence on the entire intestinal tract. They do not purge, gripe, cause nausea, flatulence, excessive looseness, diarrhoea or other annoying effect, and they may be taken at any time without any inconvenience.

Rexall Orderlies overcome the drug habit and cure constipation and all similar ailments, whether acute or chronic. They are especially good for children, weak persons or old folks. Price, 36 tablets, 25c, and 12 tablets, 10c. T. H. Carr Drug Co., 25th and Grant.

For any pain, from top to toe, from any cause, apply Dr. Thomas' Eclectic oil. Pain can't stay where it is used.

AMERICAN SOCIETY OF INTERNATIONAL LAW. REMARKABLE MEETING. SENATOR ELLIHU ROOT AT TOP, JUSTICE H. B. BROWN, RECENTLY RETIRED FROM THE UNITED STATES SUPREME COURT, AND THE FRENCH AMBASSADOR, MR. J. J. JUSSERAND.

Washington, D. C., April 28.—Under the auspices of the American Society of International Law which meets in Washington this week many notable addresses will be given. Among the most notable will be those of the French ambassador, Mr. J. J. Jusserand, who has made a life study of international law, and former Justice H. B. Brown, who recently retired from the United States supreme court.

The topic to be discussed is "Relations Between Countries of the World." Senator Ellihu Root will preside. President Taft is one of the vice presidents. An elaborate banquet is being prepared for the guests.

A Harder Job.
The tributes to the popularity of Mr. Hammond's son pleased the father, who was the oldest summer resident of Shrubville. They pleased him the more because they came from natives of the soil, whose good opinion could not be forced in any way.
"He's a real good boy, that boy o' yours," said Capt. Hollis Townie, an old friend of Hammond's.
"I like the cut of his jib," he announced, with decision, "and I like his ways; he ain't too forth-putting, nor yet he ain't too stand-offish."
"Things of it is you and his ma haven't tried to have him brought up the same as most of the summer folks do with their children; he's just been 'raised' like we were, and that's why he gets on with everybody in this town, sir!"—Youth's Companion.

MINING NEWS

GREAT SHOWING AT GOLD CIRCLE

Wonderful Ores Is Now Being Mined—Golconda Gets the Trade.

Golconda, Nev., April 29.—The re-juvenation of Gold Circle following the recent disclosures of great bodies of rich gold ore in that camp, is being materially felt at Golconda, which is the nearest railroad point to the camp. Hardly a day passes by but what big teams are here loading with lumber and supplies, and, besides, many people are going in now. The automobiles and stages are going out loaded these days and it looks as if Gold Circle will have considerable of a boom, although the mine owners and lessees in the camp are not trying to make an excitement, but are merely opening their properties.

E. Ludwick, who is associated with Joe Fayant and Joe Schloss in a lease on Esmeralda ground, was in town the other day and exhibited some beautiful samples of ore from the block of granite they are working. The ore was fairly covered with particles of the yellow metal, but the most sensational rock he showed was one that did not show visible colors but panned long strings of gold. In speaking of the ore in general, Mr. Ludwick stated that the same character of rich ore was coming from a number of other properties in the camp and he said he was in evidence on many dumps.

Big Development on Kramer Hill.
The Kramer Hill properties, being extensively worked by A. P. S. McQuestin of the Glasgow & Western Exploration company, is the center of attraction these days for big development is going on there. These holdings are only situated about two miles south of Golconda, but one of the richest mines in the state is being opened there. Not only is development progressing but large quantities of ore is being milled at the big reduction plant owned by the Glasgow company. With the aid of power drills two long tunnels are being pushed into

A Fairy Story of To-Day.

They were going to the theater. He had reached home at 6:30 o'clock, and an hour later was ready to start. There was just time to reach the playhouse by eight. She had had nothing to do all afternoon except to dress, yet it was 8:1 when she came from her room with her hat and coat on. "I am afraid we shall be late," she said.

"You look so lovely," he replied, kissing her, "that it would have been worth waiting another hour for you." No, they were not bride and groom. They had been married ten years. But what is the use of telling you any more? As you can see by this sample, you wouldn't believe it, anyway.

Russian Moth Traps.
The trees of central Europe are protected from the ravages of the Russian moth by new moth traps. Two large and powerful reflectors are placed over a deep receptacle and a powerful exhaust fan. The beams of light are thrown on the distant mountain sides, and it is said that three tons of moths were caught the first night.

WANT ADS BRING BIG RESULTS

the hillside to cut at great depth the many veins that are known to traverse the surface and which at points nearer the surface have produced an abundance of ore. At the strike of the main vein the ledge has been penetrated by numerous openings and on two blocks of ground where leasers work two shifts were sent down to considerable depth. One of these shifts was sent down to almost the 200 foot point, proving the continuity of the ore bodies. Late development of ore bodies of high grade milling ore in the long tunnels at great depth from the surface is proving the Kramer Hill properties to be deep mines.

GODIVA-SIOUX IS TO RESUME WORK

Old-Timer of the Tintic Camp in Line for Energetic Development Work.

Butte, April 29.—Operations are to be commenced on the claims owned by the Godiva-Sioux Mountain Mining company, located near the Godiva and Plutus mines in the east end. At a meeting of the board of directors held this week it was decided to dispose of some of the treasury stock for the purpose of developing the property. The old Smuggler claim, owned by Bradford N. C. Stott of this city, has been taken over by the company and Mr. Stott becomes a heavy shareholder. Others interested in the ground are ex-Governor Heber M. Wells, Secretary of State Charles Tingey and Judge Higgins. On the Smuggler claim there is a tunnel in a distance of 500 feet, which, when extended about 250 feet, will reach the ore vein of the Plutus mine, which is almost certain to extend into the new company's holdings. The property has been idle for several years, but now that it is known that rich ore lies all around it, the officials of the company have concluded to uncover some of the riches of Tintic.

Superintendent John Roundy is authority for the statement that the ore now being sent to the smelter from the Beck Tunnel mine is more than paying operating expenses. The ore are being taken from the old workings of the mine and from the new workings on the 300 level. The north workings of the property are being developed.

oped on the 1,100 level, and an excellent showing is being made. Sinking will be started at the Black Jack mine as soon as the new compressor can be put in working order. On the 1,400 level a drift is being cut and active work is being done on other levels in the mine.

ACT AS SPUR TO MAN'S PRIDE.
Love and Belief Are Powerful Agents for Reformation.

Love and belief in a man can never hurt him. It will always act as a spur to his pride, which is invariably close to a man's love, whilst it has little or nothing to do with a woman's. Even when the schoolboy falls in love with the little girl in pinafores, his first instinct is to acquire himself in her eyes in some magnificent way—to knock out some other boy, or intimidate a foe.

This instinct remains with men until they die, just as girls from the cradle or inspired by love seek beauty to appear lovely in the eyes of their adorners.

And the masculine pride and prowess and strength are what the wise girl will use in her desire to reform some man who is merely weak. Nagging drives such men into the depths. Every look of derision, snub, insult, sinks the iron deeper into their souls.—Exchange.

His American Souvenir.
John Schmidt was young and German. Shortly after he came to New York his friends in Germany wrote: "Send us a souvenir something typical of American habits."

So John Schmidt looked around. After observing Americans at home and in public for a period of three weeks he considered himself competent to comply with the request. Last week he sent home the thing which, in his opinion, most adequately represented American customs and institutions. He sent six packages of chewing gum.
